

An aerial photograph of a tropical coastline. The top half of the image shows clear, turquoise water with a white boat and a small yellow kayak. The bottom half shows a dense, lush green forest bordering a rocky shoreline. The text is overlaid on the water and forest areas.

SUSTAINABLE PURCHASE POLICY

 Pousada Literária
de Paraty

In accordance with its Sustainability Policy, Pousada Literária is committed to sustainable consumption, purchasing products and services in a responsible and conscious manner, considering environmental, social and economic aspects.

In this sense, the Pousada's sustainable purchasing process is implemented based on the following guidelines:

Priority for local and regional products and services:

Pousada Literária makes it a priority to purchase products and services from local and regional suppliers. In addition to supporting the local economy, this preference helps to reduce the distances traveled to deliver products, thereby reducing greenhouse gas emissions associated with transportation.

Sustainable certifications: We prefer products with recognized sustainability certifications, such as organic, fair trade, and environmental management (e.g., ISO 14001). This ensures that certain environmental and social standards have been met.

Waste reduction: Preference is given to suppliers who use sustainable, recyclable or reusable packaging. When possible, Pousada Literária also prefers bulk purchases. In addition, local suppliers are encouraged by the pousada to avoid excessive use of packaging and to adopt recycling practices.

Energy and water efficiency: Literária strives to purchase equipment and products that are energy efficient, such as LED light bulbs, devices with the Procel energy efficiency label, and personal hygiene products in economical packaging.

Sustainable food: We focus on buying organic food from local and seasonal producers. Some items come from Fazenda Bananal, which is part of the same group as Pousada Literária and are grown without the use of pesticides.

Training and awareness: Pousada Literária is committed to sensitizing and training its employees and suppliers so that they understand the importance of sustainable purchasing and thus contribute to the implementation of the policy.

Examined and qualified suppliers: Efforts are made to purchase products from suppliers with sustainable practices. In this way, Pousada Literária encourages the adoption of more responsible and conscious practices in the supply chain, while protecting its image and reputation. In this context, all suppliers conduct a sustainability self-assessment and Pousada Literária can also conduct technical visits to ensure their qualification.

The commitments that Pousada Literária makes and shares with its suppliers are reflected in the following aspects:

Environmental:

- Sustainable Materials
- Environmentally Friendly Packaging
- Energy Consumption Management
- Sustainable Transportation and Logistics
- Disposal and Recycling
- Water Consumption Management

Social:

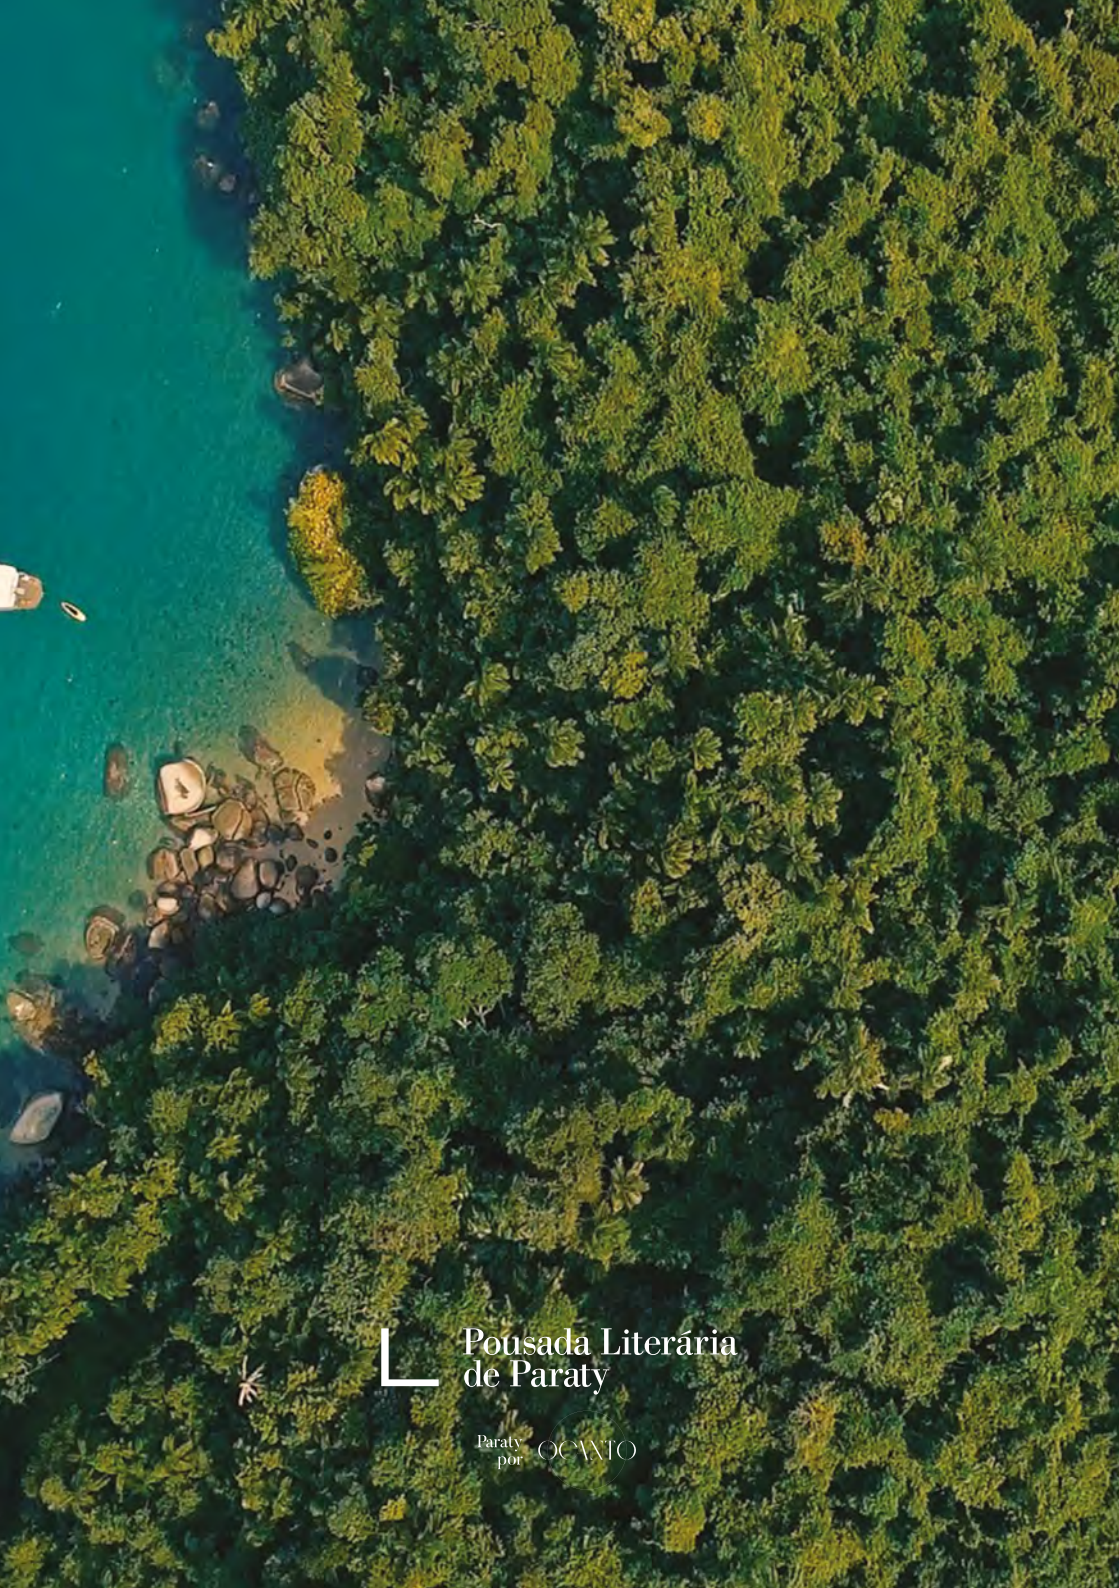

- Decent working conditions and respect for labor laws
- Protecting the health and safety of workers
- Promoting and supporting diversity and inclusion
- Respecting and promoting human rights in all circumstances
- Preferring local products and suppliers

Economic:

- Caring for Reputation
